For Immediate Release
J-Tech Now Enrolling

JACKSONVILLE – After ten months of anticipation, Jones Technical Institute (J-Tech) has received the final approval the Institute has been waiting for that will allow students to enroll and classes to begin. On Thursday July 17th, the U.S. Department of Education granted J-Tech the eligibility to participate in Title IV, Federal Financial Aid. With this approval, qualified Automotive Technology and Diesel Technology students will have the opportunity to take advantage of Federal Financial Aid to assist in paying for their training.

The U.S. Department of Education's approval for Federal Financial Aid concludes the three requirements for J-Tech to begin enrolling students into their Automotive Technology, Diesel Technology and Commercial Truck Driving programs. This action was preceded by approvals from the Florida Commission for Independent Education (CIE) and the Accrediting Commission of Career Schools and Colleges (ACCSC).

J-Tech is committed to providing training programs that meet the employment needs of the local region. In its effort to meet these skill gaps, J-Tech has reached out to community leaders in the industry to determine how the J-Tech program may assist their businesses. One of J-Tech's initial partnerships was with NAPA Auto Parts.

Gregg Sargent, NAPA Auto Parts Division Vice-President recognizes the opportunity with J-Tech. "NAPA's role with J-Tech is a strategic partnership to educate students and teach them the automotive trade. J-Tech is a first class facility with some very impressive people. It's been great working with everyone."

For more information on enrolling at J-Tech, call 904-328-5599 or visit www.jtech.org.
